# Sharing and Managing Models with Model Registry

## Paweł Kordek Software Engineer – Data and Machine Learning

@pawel\_kordek

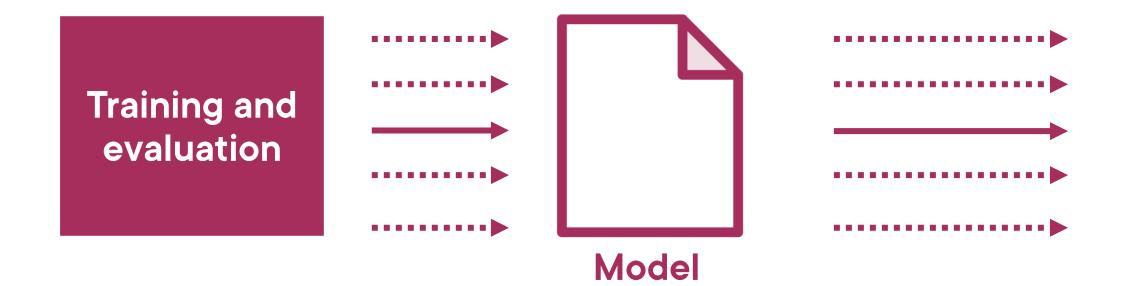

#### Overview

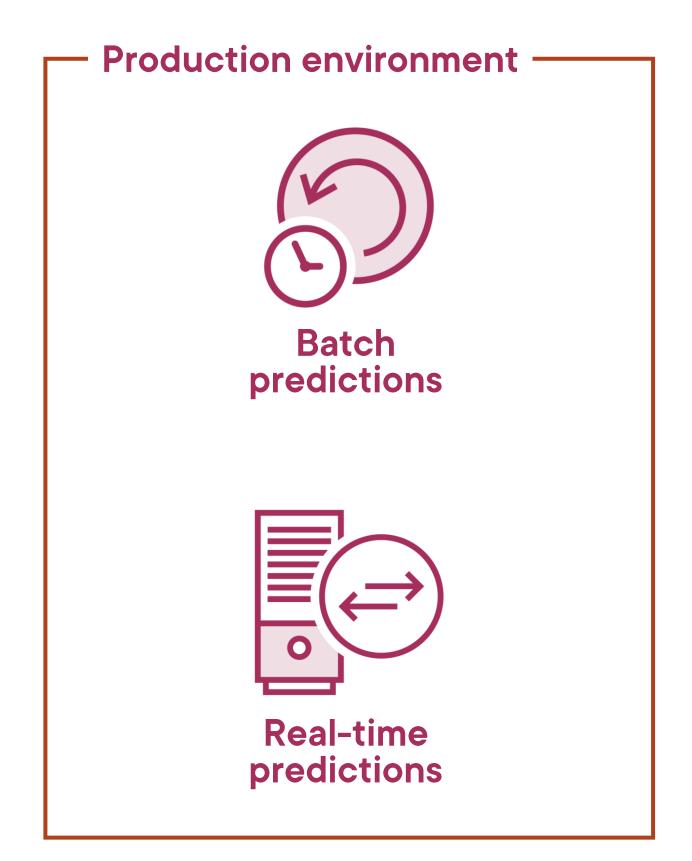

Problems that Model Registry solves

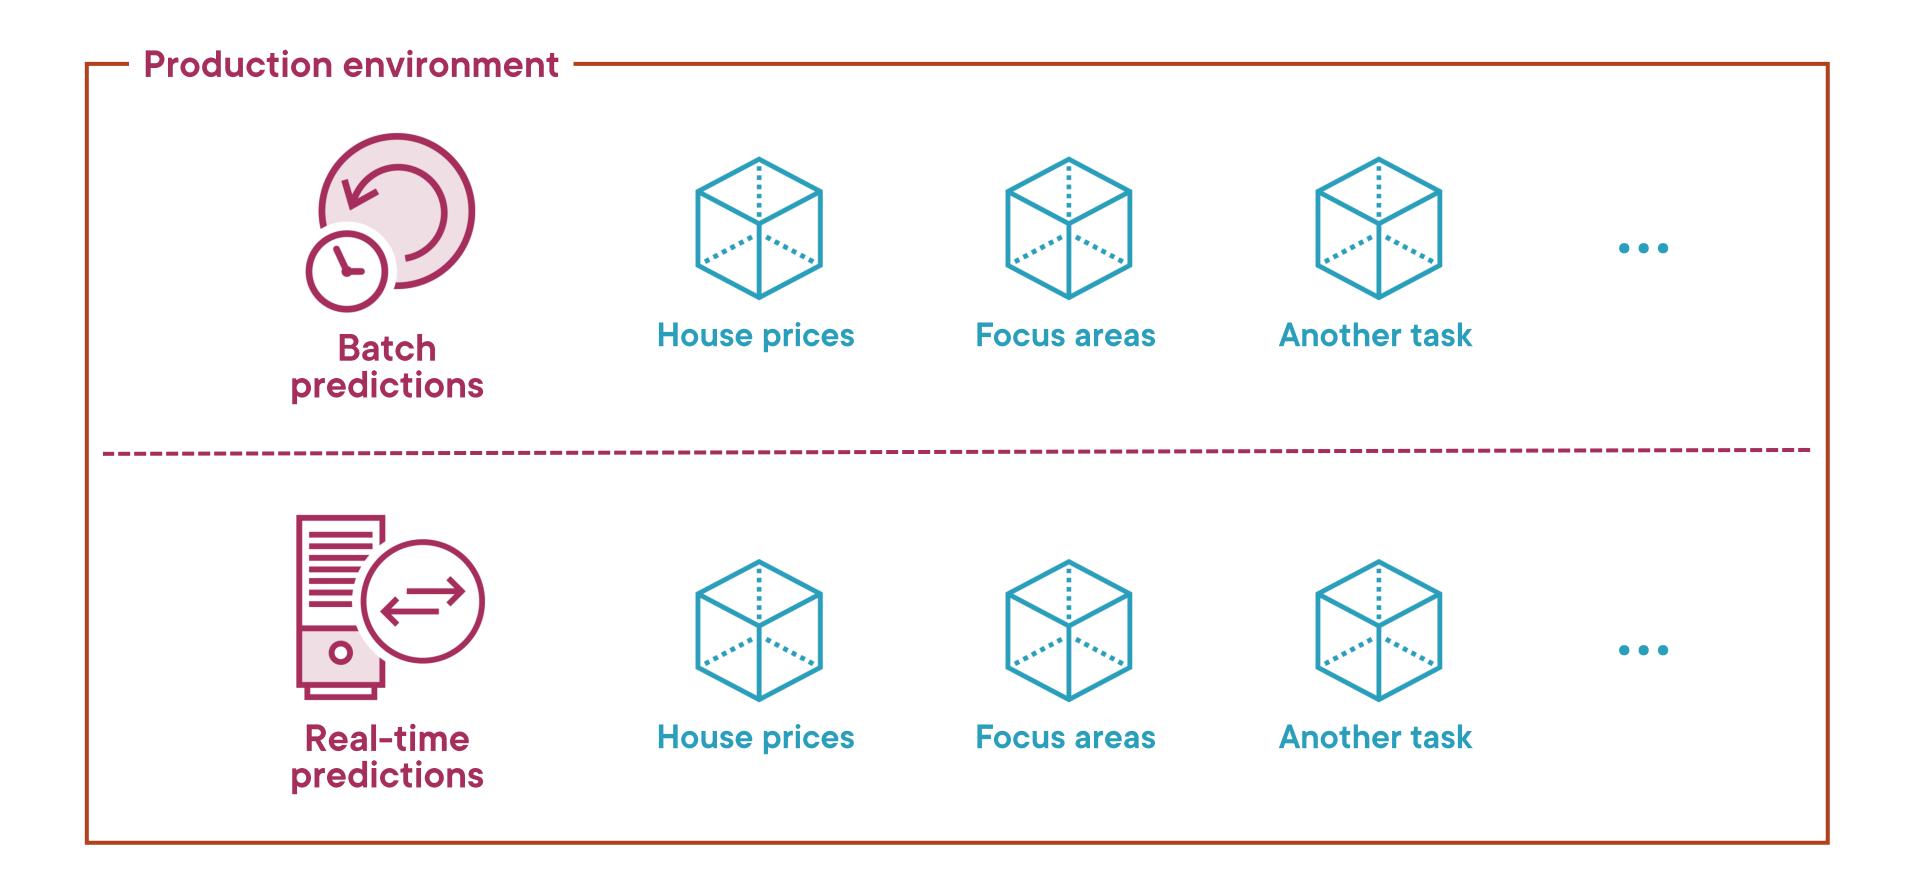

Working with Model Registry in the UI

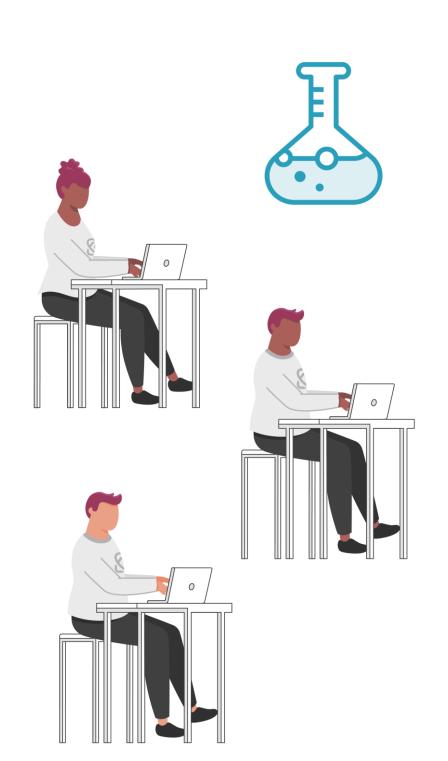

Using Model Registry when training and running predictions

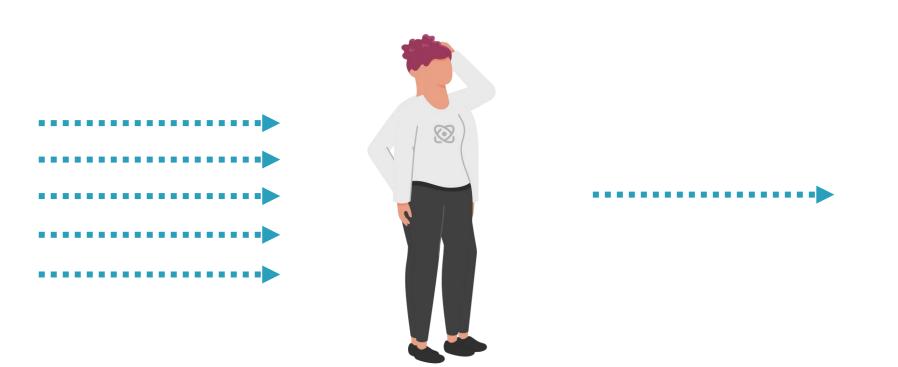

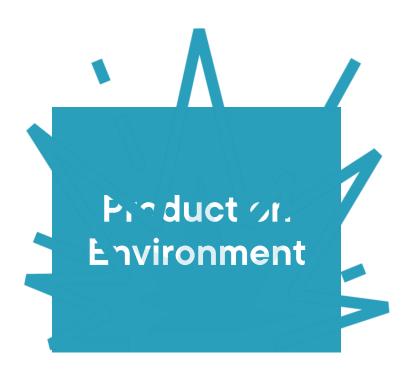

Takes care of model deployments

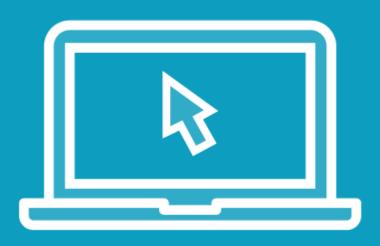

## Model Registry

## Registered Model

### Demo

**Creating registered models** 

Registering individual models

Managing stages

**Running predictions** 

#### Summary

Problems that Model Registry solves
Registered models, versions, and stages
Registering models from the UI
Registering models from training scripts
Using models from the registry
