Summary

Paweł Kordek Software Engineer – Data and Machine Learning

@pawel_kordek

Machine Learning Workflows

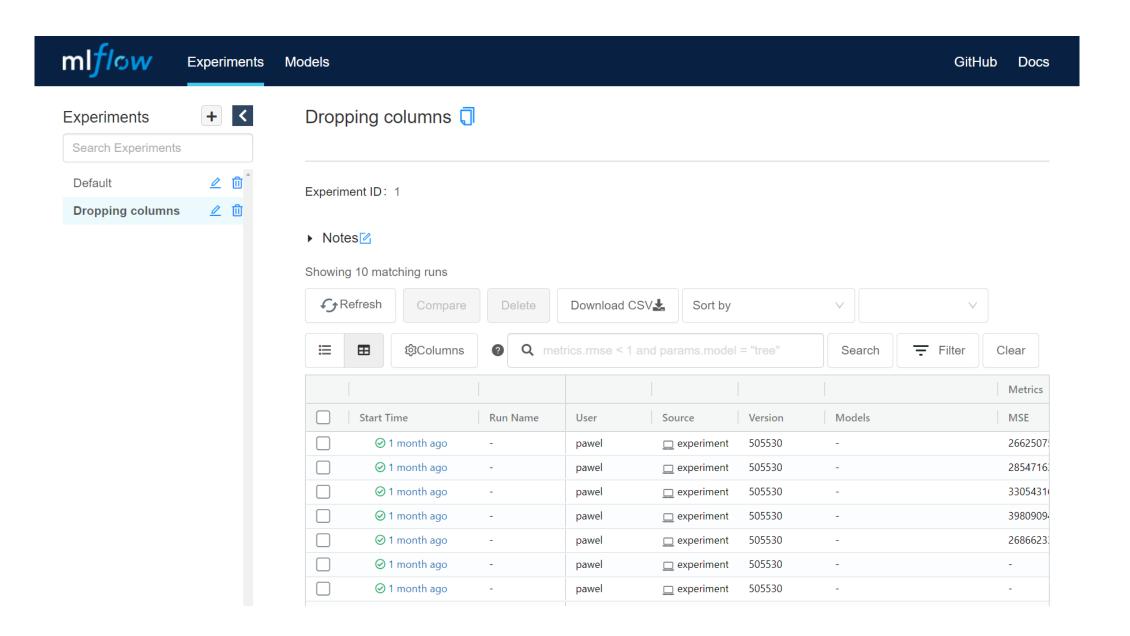

MLOps Common problems Role of MLflow

MLflow Tracking

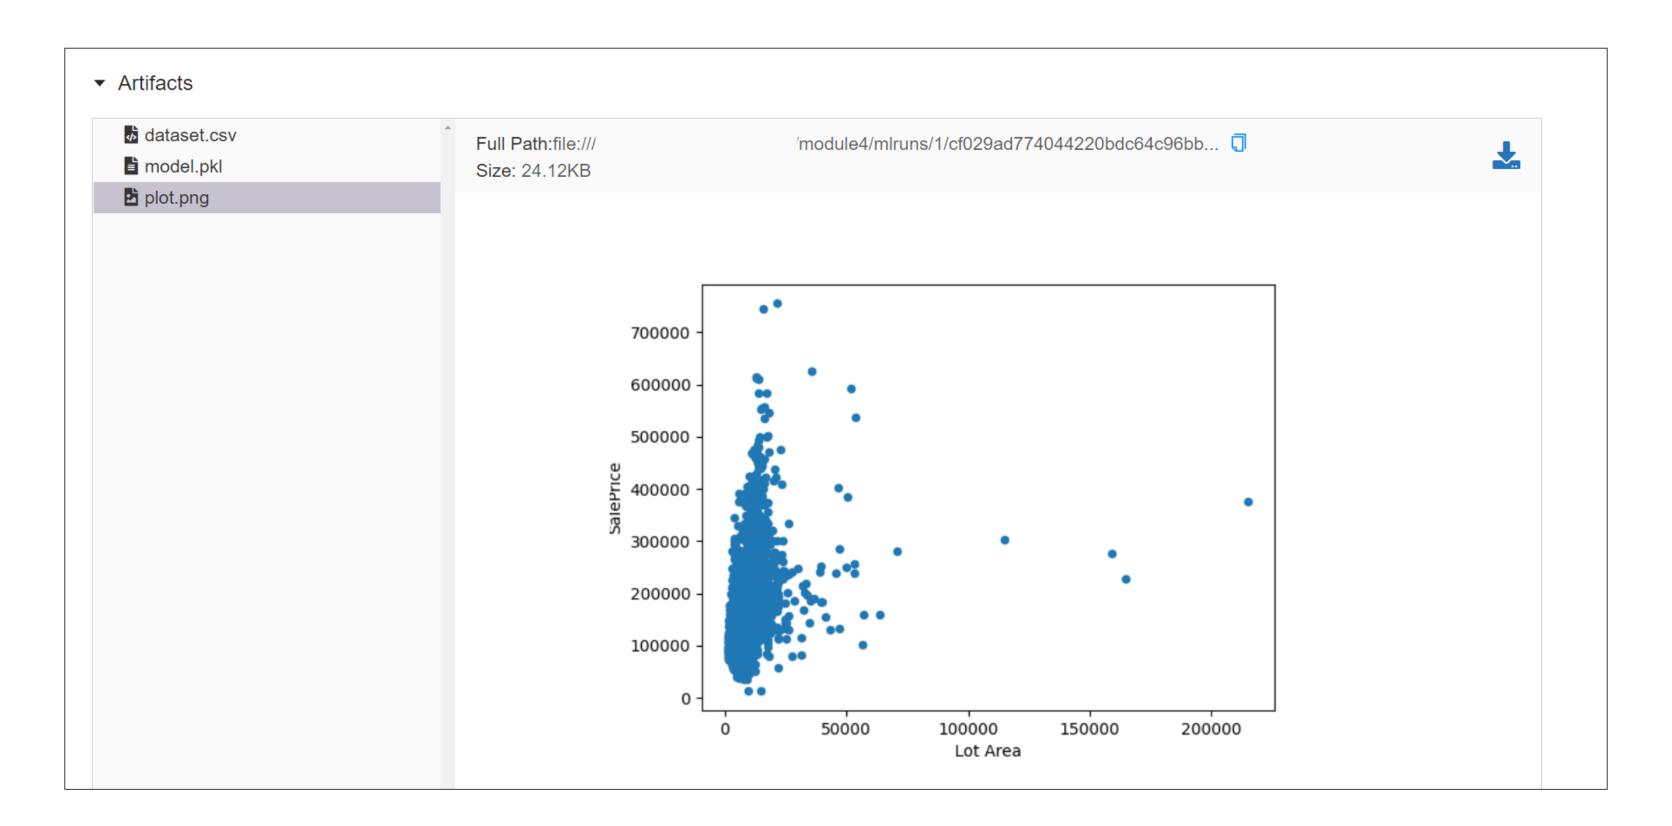

Experiments, runs, parameters, and metrics

MLflow UI

Artifacts

MLflow in Teams

MLflow architecture

Backend store vs. artifact store

MLflow server

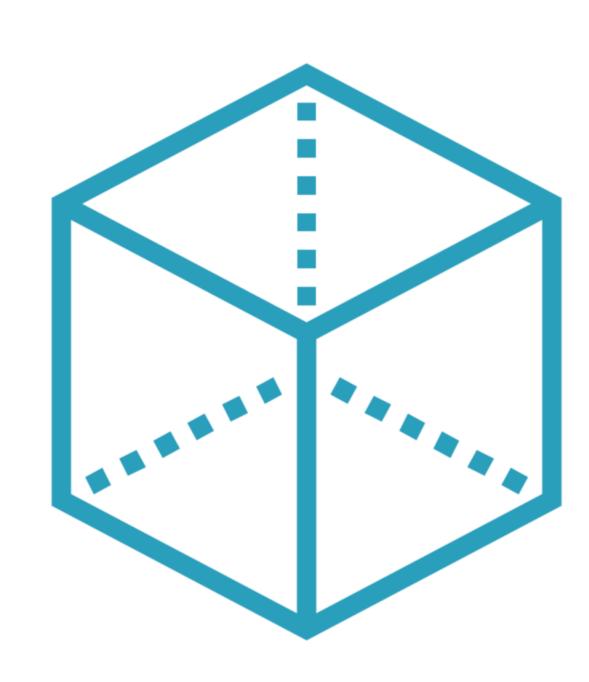

Complete MLflow deployment

MLflow Models

Supported flavors

'Pyfunc' flavor for custom models

Running predictions in batch + real-time

Model Registry

Registered models

Versioning and stages

Running predictions

Thank You!
